The RAYYITHUN

At SIX & SIX, we don't speak of "staff."
We speak of people who belong to the island and carry its rhythm.
The Rayyithun are our team –but more than that, they are our culture in motion.

The move with intention.
They serve with heart.
They bring the islands to life, by being part of the story.

When guests arrive, they don't just meet a team.
They meet a living community –grounded, generous, and quietly extraordinary.

The Edhurun *Dedicated Butler*

Edhurun means mentor in Dhivehi. At SIX & SIX, the Edhurun is more than a butler. They are a trusted guide – calm, intuitive, and deeply attuned.

Trained to deliver seamless service with grace and discretion, they anticipate needs before they are spoken.

Every detail is thoughtful. Every moment, personal. Not just service – a sense of presence.
